January 3.1920.

Miss Alice Eastwood,
Curator of the Herbarium,
California Academy of Sciences.

My dear Madam:

I am wondering whether you have any California or Arizona material that you would be willing to exchange with us; we have sets of perhaps 250 sheets of Southern California material collected largely on the Mohave and Colorado deserts; of about 150 sheets collected by Baker in Nicaragua; smaller sets from Cuba; and possibly some material from Baker's collection of the economic plants of the world. If you care tohave any of this material, I shall be very happy to hear from you as to what you are willing to give us for it.

Very truly yours,
